- Once your bid is made, you will be able to see the bid details from the BIDS screen. Once the auction has cleared, you can select your bid details to find out if your bid status. A status of *PROCESSED* means you were not awarded any MW; your bid was not accepted. A status of *CLEARED* means you were awarded some MW; your bid was at least partially accepted. By selecting the bid view option (see below) you can see the results of your bid.

- The Bid View will also allow you to see which of your blocks (if you entered several blocks) were awarded MW and which ones were not. The auction clearing price is listed at the top of the Bid View for bids that had MW awarded.
