

JOBS AT PLANT VOGTLE

At Plant Vogtle, there will be continuous construction activity over the next several years, which translates into opportunities for qualified workers.

Two new units are being built at the plant, the first new nuclear units in the United States in 30 years. At the peak of construction, more than 3,500 workers will be needed on site to build the units and all of the accompanying facilities. In addition to the construction personnel, Southern Company will hire more than 800 permanent employees to operate and maintain the new units.

The new units will be the first in the industry to use the Westinghouse AP1000 advanced pressurized water reactor technology.

How can I get a job at Plant Vogtle?

In the construction of a nuclear-powered generating facility, such as the two new units at Plant Vogtle, stringent requirements are in place for any prospective employee.

To work at Plant Vogtle, applicants must:

- Have appropriate levels of education, experience and training
- Have applicable skills and work behaviors
- Remain drug-free and be able to pass a comprehensive background investigation
- Be a legal U.S. worker
- Be able to pass entry tests

What kind of jobs are available?

There are many different types of jobs available at Plant Vogtle. These include, but are not limited to:

- Engineering
- Project management
- Administrative
- Pipe fitters
- Carpenters
- Electricians
- Laborers

How do I apply?

The Shaw Group is the general contractor for most of the construction work and related support functions for the new Vogtle units. Shaw will use many subcontractors, as well as direct hires and union labor, to build the units.

To apply for Southern Company jobs at Plant Vogtle, go to www.southerncompany.com and click on the "Careers" tab.

To apply for engineering, project management and administrative "field/non-manual" positions, applicants should go to the Shaw web page at www.shawgrp.com/careers.

All other applicants should contact one of the labor unions providing the majority of the construction workforce.
